Address: St Lucia, Queensland, Australia, 4067

Career Development and Objective

A forestry specialist who has strong experience in forestry and data analysis.

Currently, I am looking for a position that allows me to utilize my skills in data analysis to solve real-world problems.

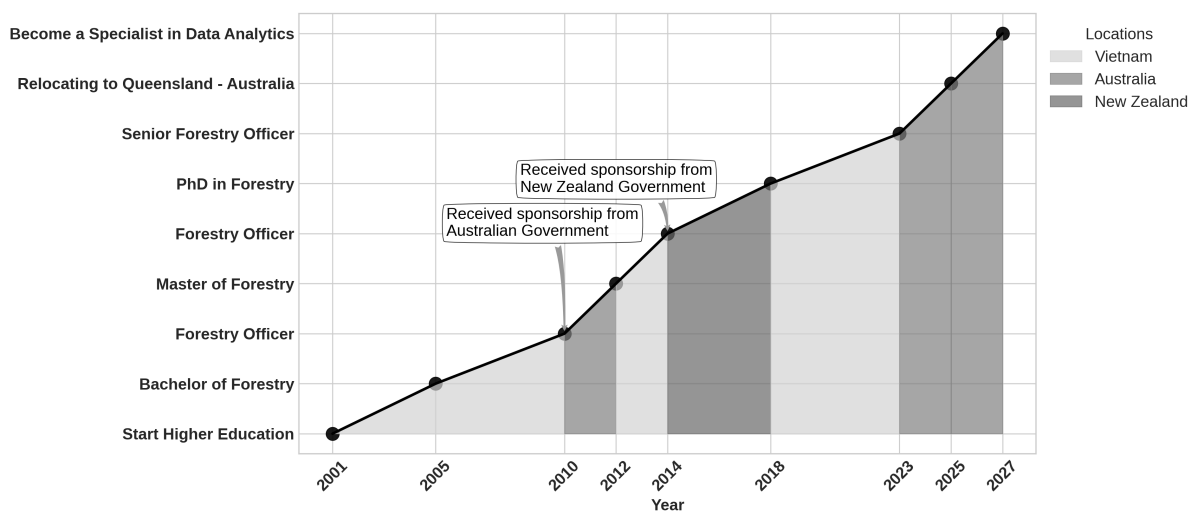

Figure 1: Professional Timeline

Education

University of Canterbury, Christchurch, New Zealand

PhD in Forestry

Graduation Year: 2018

Australian National University, Canberra, Australia

Master of Forestry

Graduation Year: 2012

Graduate Diploma in Environmental and Management

Graduation Year: 2012

Thai Nguyen University of Agriculture and Forestry, Thai Nguyen, Vietnam

Bachelor of Forestry

Graduation Year: 2006

Professional Experience

Relocating to Australia and Self-training

October 2023 - Present

Relocating to Australia as a family of four with two boys and a commitment to self-training gave me opportunities to:

- Leverage self-training to develop new skills in data analysis.
- Navigating the challenges of relocating to a new country and integrating into a new culture strengthening my ability to adapt to new environments and situations.
- Developed a project on [Brief Description of Project], which can be found at github.com/yourusername/project
- Earned certifications in [Relevant Certifications]
- Participated in [Relevant Workshops, Seminars, or Conferences]

Academic Experience

November 2014 – March 2018

Spending four years as a PhD candidate provided me with:

- Advanced research skills
- Critical analytical abilities
- Practical experience managing complex projects

Forestry Officer

May 2006 – August 2022

The combination of hand-on field experience and professional training at a prestigious Australian institution, Australia National University, has provided me with excellent skills in management, including:

- Integrate research, field data, and strategic planning to develop and implement sustainable forestry practices.
- Enhance my ability to lead and collaborate with stakeholders to achieve common goals.
- Cultivate strong problem solving and critical thinking skills.
- Use data analytics and research methodologies to inform decision-making and drive continuous improvement.

Projects

Resume

- The repository contains my latest resume showcasing my skills and experience
- Technologies used: Latex, Python, Vscode, Git, matplotlib
- Repository link: github.com/yourusername/project

Loan Status Prediction

- Analyse and predict loan status and credit score of potential clients use neural networks with two outputs.
- Technologies used: Python, Jupyter Notebook, Git, matplotlib, tensorflow, tensorboard, scikit-learn, keras.
- Repository link: github.com/ant-analytics/loan-status

Technical Skills

- **Programming:** R, Python
- **Development, Data Science and GIS Tools:** Rstudio, Jupyter Notebook, Anaconda, Git, Vscod, QGIS
- **Analytical and Statistical skills:** hypothesis testing, regression and classification models, machine learning, neural networks, data visualization.

Soft Skills

- **Soft Skills:** Teamwork, Self-Development, Research and Development, Highly Adaptive to New Environment
- **Soft Skills:** Teamwork, Self-Development, Research and Development, Highly Adaptive to New Environment

Certifications

Stanford University & DeepLearning.AI

Machine Learning Specialization

April 2023

Course Certificates Completed:

- Supervised Machine Learning: Regression and Classification
- Advanced Learning Algorithms
- Unsupervised Learning, Recommender, Reinforcement Learning

Additional Information

- **Australian Work Right:** Unlimited work and study entitlements
- **Driver's License:** Class CA (Automatic Car) - Type: O (Open)
- **Police and Health Check:** Available upon request
- **References:** Available upon request
- **Australia, New Zealand qualifications and online training certificates** Available upon request
- **Languages:** Vietnamese (Native), English (Fluent)
- **Interests:** Hiking, Photography, Reading
